Montreal

Alain Courchesne
Interior Designer
Montreal

Roberto Menegati
MENEGATI DESIGN
Montreal, Sao Paulo

Kim Pariseau
APPAREIL ARCHITECTURE
Montreal

Sandra Schmitke
Ubisoft
Montreal

In the Warren Flowers Gallery from October 11th until Sunday the 29th, 2017 there is an exhibition of alumni work that shows the various components of the design process that led to a finished project. When only photographs of completed work are seen on-line or in design magazines, there is no evidence of all the steps taken by the designers, their consultants, and their clients to get to the finish line.

The Interior Design teachers each selected one alumnus who have distinguished themselves with the completion of many creative and functional Interior Design or Architecture projects. The alumni were asked to show what happens from the initial Client meeting, from inspiration, to research, to design development, to contract documents, to shop drawings, to site visits to construction sites, and then the taking of the 'finished project' photos.

The Vernissage will be on Thursday evening, October 19th, from 5:30 pm to 9:00 pm with complementary wine.

The Interior Design staff at Dawson College welcome all interested parties to visit the Warren Flowers Gallery and observe what goes on in the design development of interior design and architecture projects. We are proud of the creative achievements of our alumni and we would like to share their work with you.
